

CHECKLIST

For assessing IMI2 JU eligibility for funding of companies having an annual turnover of EUR 500 million or less

Version 05/06/2020

Organisation legal name	
Organisation PIC Number (from the Participant register/Funding & tenders portal)	

The objective of this checklist is to determine whether an organisation qualifies as a participant eligible for IMI2 JU funding, as defined in IMI2 JU Delegated Regulation (EU) 622/2014.

The checklist must be filled in by **private for profit legal entities** - intending to receive IMI2 JU funding as a Beneficiary Receiving Funding (BRF) - that are not SMEs according the Commission Recommendation 2003/361/EC of 6 May 2003 (concerning the definition of micro, small and medium-sized enterprises), and therefore not susceptible to be validated as such in the [Participant register / Funding & tenders portal](#) (i.e. entities that do not qualify as an SME¹). In case of doubt on whether your company qualifies as an SME, you may first fill-in the [SME self-assessment questionnaire](#) in the Funding & tenders portal.

In the context of IMI2 JU Article 1(b)(i) of Delegated Regulation (EU) 622/2014, in order to be eligible for funding, private for profit legal entities – i.e. companies – must have an annual turnover of EUR 500 million or less, **not being affiliated entities of companies**² with an annual turnover of more than 500 million³.

The definition of 'affiliated entities' is provided by Article 2(1)(2) of Regulation (EU) No 1290/2013: **'Affiliated entity'** means any legal entity that is under the direct or indirect control of a participant, or under the same direct or indirect control as the participant, or that is directly or indirectly controlling a participant.

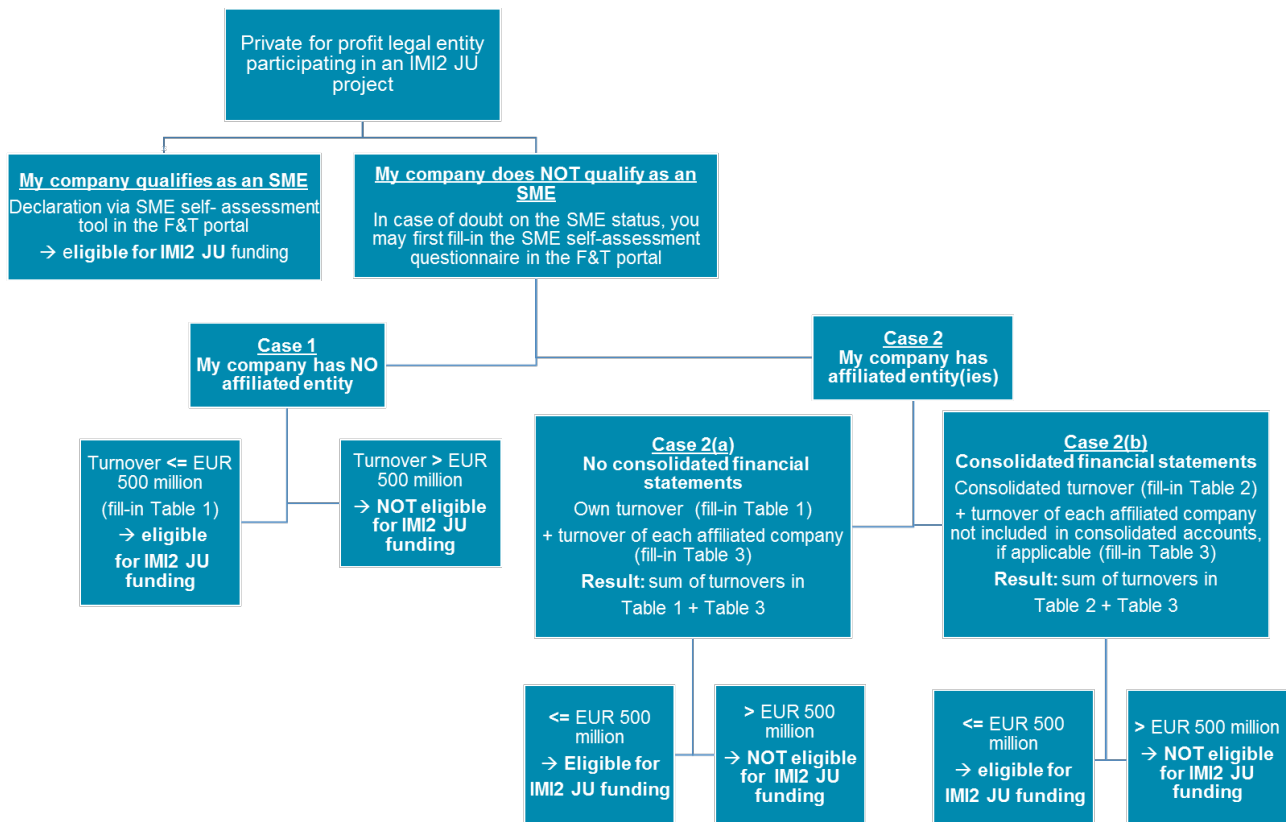

¹ SMEs - criteria staff headcount below 250 persons and turnover below EUR 50 million or total balance sheet below EUR 43 million - are eligible for IMI2 funding. If an organisation exceeds one of the thresholds for two consecutive accounting periods, it loses the SME status in the Participant register / Funding & tenders portal.

² This means that for a company affiliated to one or several public entities, the turnover of the public entities should not be taken into consideration for the assessment of the eligibility for IMI2 funding of that company.

³ For the assessment of the eligibility for IMI2 JU funding of a participating company having affiliated entities, the aggregated amount of turnovers of all affiliated entities should be of no more than EUR 500 million.

Own annual turnover ≤ EUR 500 million	Own annual turnover > EUR 500 million
Eligible for IMI2 JU funding	Not eligible for IMI2 JU funding

Case 2: Your organisation has affiliated entity(ies)

Case 2(a): Your organisation does not draw up consolidated financial statements

Your organisation does not draw up consolidated financial statements or is not included in the consolidated financial statement of another company.

Eligible for IMI2 JU funding	Not eligible for IMI2 JU funding

Case 2(b): Your organisation draws up consolidated financial statements

Your organisation draws up consolidated financial statements or is included in the consolidated financial statements of another company.

In this case, your organisation needs to declare the consolidated turnover, your organisation must indicate the consolidated turnover specified in the consolidated financial statements, independently of its position as a subsidiary or a parent company (Table 2).

Furthermore, your organisation also needs to declare, if any, the turnover of any other company **NOT already included in the consolidated financial statement** exercising control on your company, under control of your company, or under the same control. Control can be in fact, in law or in any other form (please see Table 3).

Your organisation needs to fill in Table 2 and Table 3 on the basis of the relevant companies last approved financial statements.

Consolidated annual turnover (Table 2) + turnover of each affiliated company not consolidated (Table 3), if applicable ≤ EUR 500 million	Consolidated annual turnover (Table 2) +turnover of each affiliated company not consolidated (Table 3), if applicable > EUR 500 million
