Delegate and National Contact Point –
Health Sector

AICIB - Agência De Investigação Clínica
e Inovação Biomédica / Agency for
Clinical Research and Biomedical
Innovation

Ana Rita Pinto is a Delegate and National Contact Point for the Health sector within the Horizon Europe and DIGITAL frameworks of the European Commission.

She holds a PhD in Biomedical Engineering and 17 years of academic research experience. Throughout her career, Ana Rita has made significant contributions to various fields, ranging from tissue engineering to pancreatic cancer research. Her expertise extends to developing original products, cultivated through close collaboration with key stakeholders including clinical and industrial end-users.

She has extensive experience in funding surveillance and project writing. She was a professional consultant in European Projects, specializing in working with SMEs to navigate deep tech health applications, particularly within the EIC Accelerator instrument.
