1. Purpose

The purpose of this guidance document is twofold:

- to provide the **definition** and the general **characteristics** of an Associated Partner ‘case b’ and to highlight the main differences with the other types of participants.
- to assist the IHI project Coordinators on the **steps to follow in ‘Sygma’ IT tool (Funding and Tenders Portal)** on the addition of an Associated Partner (AP) ‘case b’ during the Grant Agreement Preparation (GAP) and Amendment (AMD) process.

2. Definition and general characteristics of an Associated Partner ‘case b’

Background and purpose

Under the Horizon Europe legal basis, legal entities that are not eligible to receive EU funding cannot participate as either beneficiaries (unless deemed essential) or affiliated entities (except in IHI calls 1 to 3) in a Horizon Europe grant.

The concept of “**Associated Partner case b**” was therefore developed to enable those IHI JU private members’ affiliated entities that are established outside the EU and HE’s associated countries¹ (i.e, not eligible for EU funding) to still participate and provide financial and/or in-kind contributions to IHI JU projects.

Additionally, the Associated Partner ‘case b’ approach provides a simplification measure for IHI JU private members that have affiliated entities (established within or outside the EU/HE’s associated countries) as Associated Partners ‘case b’ do not need to go through a PIC² validation process and their project reporting can be centralised by the designated Beneficiary.

The general characteristics of an Associated partner ‘case b’ are the following:

- They implement action tasks but cannot receive EU funding;
- They must have a (capital or legal) link with a private member or a contributing partner who is participating as beneficiary in the IHI grant (the ‘designated beneficiary’);
- They can contribute financial and or in-kind contribution (FC, IKOP);
- They can contribute IKAA if the entity is a private member and if the additional activities are incurred in EU or Associated countries (see [IHI guidelines on IKAA](#) for IHI private members);
- They do not have access to the project details in the Funding and Tenders Portal but are linked to the project via a designated beneficiary;
- They must comply with the costs’ eligibility conditions (Article 6 of the HE MGA);
- They have obligations regarding the reporting of their contributions via the designated beneficiary;
- They may be established inside or outside the EU;
- They shall provide a Certification of costs (CCS) at the end of the project in case the reported contribution (IKOP + FC) exceeds the threshold of EUR 430.000.

3. Addition of an Associated Partner ‘case b’ in a Consortium

3.1 From Proposal to Grant Preparation (GAP)

During the proposal stage, all affiliates of IHI JU private members and/or IHI JU contributing partners should be specified as affiliated entities (AE) as per Horizon Europe definition.

After the proposal is selected, the list of beneficiaries and affiliated entities is automatically migrated to the SyGMA tool in the ‘Beneficiaries’ section of the relevant project.

During GAP, affiliates of IHI private members and IHI contributing partners not requesting funding can keep the affiliated entity status or decide to participate as associated partners ‘case b’. If they are based outside the EU/HE associated countries, they must participate as associated partners ‘case b’. On the contrary, if these entities request IHI funding, they must participate as affiliate entities.

Note that IHI private members and/or IHI contributing partners who intend to participate as associated partners ‘case b’ do not need to sign the DoH and do not need to have a validated PIC (a declared PIC is sufficient). See general characteristics listed above.

In SyGMA, while affiliated entities need to be listed in the ‘Affiliated Entities’ section of the concerned Beneficiary, associated partners (case b) **need to be removed from the general ‘Beneficiaries’ section** and be listed in the ‘Associated Partners’ section.

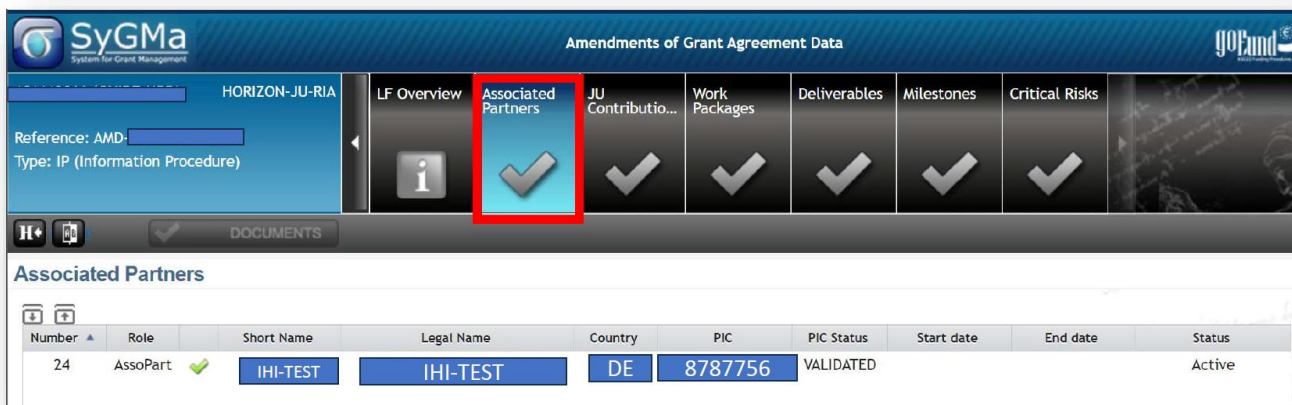

Please follow instructions below to add an associated partner ‘case b’.

3.2 During GAP or Amendment

Here are the steps to follow by the IHI project Coordinator in SyGMA (via the Fundings and Tenders Portal) to add an Associated Partner ‘case b’:

1. Add the entity in the **‘Associated Partners’** tab.
Note that an Associate Partner ‘case b’ does not necessarily need to have a VALIDATED PIC. Therefore, a PIC that has status **‘DECLARED’** is sufficient.

In the example below, the new AP ‘case b’ is named ‘IHI-TEST’ and has been added to the ‘Associated Partners’ tab.

2. Add the entity and its contribution to the project in the **'JU Contribution'** tab.

The 'JU contribution' tab should list all IHI private members and IHI contributing partners (if any) involved in the project, whether they participate as Beneficiary, Affiliated Entity or Associated Partners case B. Each entity should be listed separately.

In the example below, the new AP 'case b' named 'IHI-TEST' and its IKOP (EUR 448,125) have been added in the 'JU contribution' tab. The new AP 'case b' has a capital and/or legal link with the designated beneficiary (which does not contribute IKOP to the project but plans to give financial contributions).

Number	PIC	Role	Affiliation	Reporting Periods	GA Options	Financial Information	IKOP	Non-EU IKOP	FC given	IKAA
4	8787751	IHI Private Member (designated beneficiary)	Yes (Founding Member Affiliate)	Yes	Yes	0.00 €	0.00 €	450,000.00 €	0.00 €	
5	8787752	IHI Private Member	Yes (Founding Member Affiliate)	Yes	Yes	0.00 €	0.00 €	2,000,000.00 €	0.00 €

9	8787757	IHI Private Member	No	Yes	Yes	8,607,450.00 €	7,789,750.00 €	0.00 €	0.00 €	
10	8787756	IHI-TEST (AP)	No	Yes	Yes	448,125.00 €	448,125.00 €	0.00 €	0.00 €	

3. In the **'Financial Information'** tab, include the costs of the Associated Partner 'case b' into the estimated budget of the designated beneficiary. The estimated costs of both entities together should be specified in the estimated budget of the designated beneficiary.

In the example below, the total cost for both entities together is specified in the estimated budget of the designated beneficiary in the 'financial information' tab and amounts to EUR 448,125 (as in this particular case, the designated beneficiary does not contribute IKOP to the project but only Financial Contribution (FC)).

4. Update the information for any new participant(s) in the project participant list in the SOFIA tool (<https://sofia.ih.europa.eu>). Detailed instructions on the steps to follow can be found in SOFIA.

For AP 'case b', it is necessary to specify if the participant is a Private Member (including its affiliation to EFPIA/COCIR/MedTechEurope/EuropaBio) or a Contributing Partner.

- a. During GAP, the Coordinator should perform this action in the SOFIA tool as soon as the GAP is submitted to IHI JU. This will allow the entities whose the Membership status is 'No' in the 'JU Contribution' tab (see screenshot below) to be correctly reflected **before** the grant agreement is signed.

In the example below, the Membership of the new AP 'case b' and another IHI Private Member of the ongoing GAP appear as 'No' because the information is not yet updated in the Sofia tool.
